

2 ESSENTIAL COMPONENTS OF A COMPREHENSIVE HEALTH INSURANCE PLAN

COMPONENT #1

A HEALTH INSURANCE PLAN:

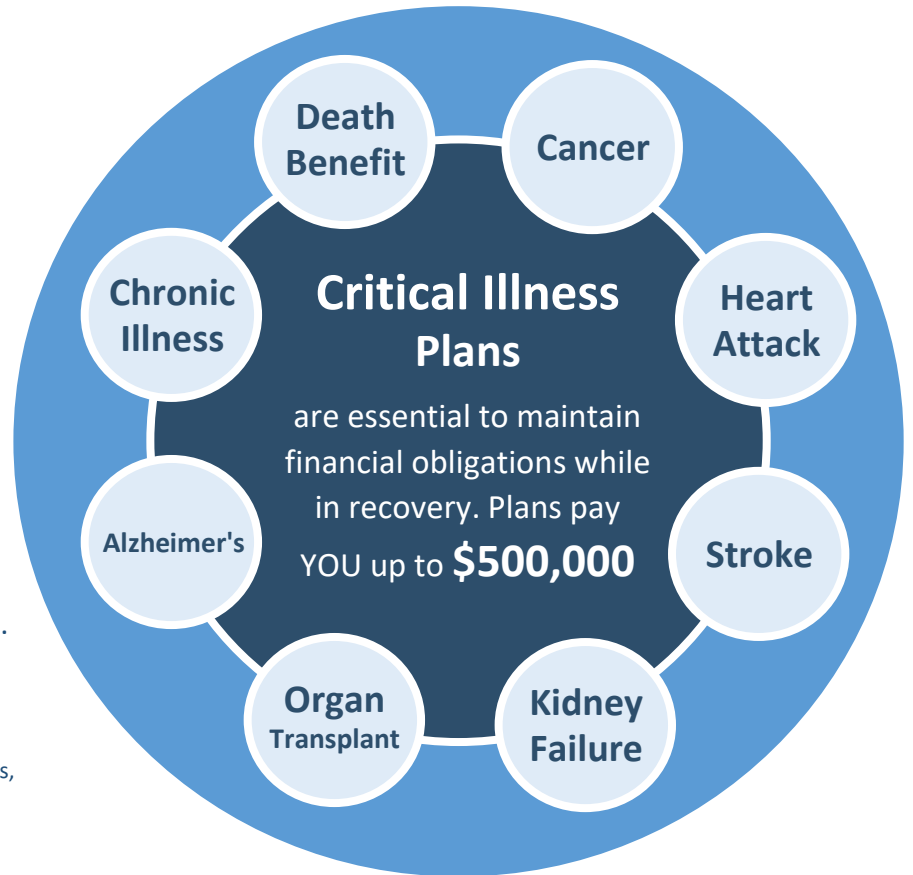

Pay Physician, Surgical & Hospital Charges

COMPONENT #2

A CRITICAL ILLNESS PLAN:

Provides funding to maintain your financial obligations* during recovery. If recovery is not possible, a death benefit is provided.

(*Mortgage, Auto Payments, Routine Household Expenses, Credit Card Payments, Business Expenses, etc.)

WHAT ARE THE CHANCES OF SURVIVING A CRITICAL ILLNESS?

Fortunately, the chances of surviving a major illness are improving. However, the costs associated with battling an illness can be detrimental to individuals that do not have the financial reserves to fund recovery. An ABR may be the resource you need to help maintain financial stability and get back on your feet quickly after recovery.

Nearly 69% chance of surviving Cancer

The 5-year relative survival rate for all cancers diagnosed in 2005-2011.

Nearly 83% chance of surviving a Stroke

The yearly survival rate of people in the US who have a stroke.
