Clover Health is a dedicated partner to the broker community.

Clover Health is committed to being the best-in-class Medicare Advantage partner to the broker community by pairing top-tier customer service with technology-enabled platforms.

We listen to you, understand your challenges, and make changes to ensure you can focus on your clients and build your book of business.

Support you can count on when you need it most

We have targeted partners

We believe in true partnerships, not broad-stroke contracting. This is why Clover Health handpicks strategic partners in each market to grow with us.

We focus on our members

We ensure your clients have access to plans with predictable costs and supplemental benefits like dental, vision, and OTC that support their comprehensive healthcare needs.

We want to grow with you

Clover Health is committed to establishing strong relationships with the broker community and building a foundation for the long term growth and success of its partners.

We have your back

With a dedicated broker support team, technology-enabled tools, and top-of-the-line selling materials, you can be sure Clover Health will be there to assist throughout your selling journey.

Clover Health is building a smarter kind of healthcare.

Clover Health is a Medicare Advantage company dedicated to using technology in new and innovative ways to help our members live healthier lives.

We have passionate teams of data scientists and engineers building tools that are transforming healthcare for Medicare beneficiaries, their caregivers, and providers.

Clover Health Member Portal

Members can access plan and benefit information online using a computer or a smartphone. They can also use the portal as a digital ID card and to find local doctors and specialists.

Clover Assistant for Providers

This web-based tool surfaces gaps in care, previous diagnoses, and current medications, so providers always have the most up-to-date information about their Clover Health patients.

Clover Analytics

Our proprietary software analyzes data from disparate sources in order to form a full picture of our member's healthcare experience. It is a "learning engine" powered by AI that gets smarter over time, allowing us to identify actionable insights that help us prevent serious health problems and improve outcomes through early intervention.

- 30% fewer hospitalizations compared to competitors
- 84% accuracy in predicting customers that are most at risk of a hospital admission
- 137% improvement in percentage of diabetics with blood sugar under control
- 63% improvement in percentage of hypertensive customers with blood pressure under control
